The Board received a communication from City Engineer Mark Bittner stating the City of Fargo on behalf of the United States Army Corps of Engineers, St. Paul District and the City of Moorhead, MN, is requesting proposals from qualified consultants for the following projects:

Fargo-Moorhead Metro Flood Risk Management Project

<u>Fargo Project No.</u>	<u>Location</u>
5683-08	Minnesota Diversion Channel Alignment
5683-09	North Dakota Diversion Channel Alignment

Mr. Bittner stated the City of Fargo will be acting as the contracting agency for project funding purposes and the St. Paul District of the United States Army Corps of Engineers will be the Project Management Agency.

City Engineer Mark Bittner stated authorization was given at the last Metro Flood Study Work Group meeting to proceed with procuring consultants to do certain work for the City because the Corps does not have the funding to do the work themselves. He said the proposal is for the cultural resources survey that needs to be completed on both the Minnesota and North Dakota diversion alignments and the total cost with options will be about \$900,000. Resolution Adopted Approving a Plat of Commerce on 52nd First Addition (5156 53rd Street South):

Planner Nicole Crutchfield stated this application is for a major plat of one large lot being divided into 13 separate lots. She said this application came to the Planning Commission in three parts; a major plat, sidewalk waiver and a conditional use permit. At the Planning Commission hearing the sidewalk waiver was denied, she said, and the conditional use permit was continued. The Planning staff directed the applicant and opposition to coordinate their issues with the conditional use permit, she said, and meanwhile, the applicant withdrew the application for a conditional use permit, so zoning is no longer a part of this application.

James Carlson, 5012 53rd Street South, stated his concern with the requested zoning change is that it would give the property owners too much latitude and would not be consistent with what is already there, however, after meeting with the property owners, an agreement was made to keep the property general commercial.

Steve Iverson, Level One A Investments, stated he is part of the ownership group that controls the parcel of property and after meeting with Mr. Carlson's group, the application for a conditional use permit was withdrawn. He said the thought when applying for the permit was that it would give some flexibility when trying to sell the properties to individuals who may have a need for a more industrial use on the lots. In hindsight, he said, this was not the best idea for the property as it is already zoned general commercial.
